

SQUAT.

PUSH.

LIFT.

TWIST.

WORK NMOTION™

ONLY FROM RED KAP.®

PULL.

REACH.

CLIMB.

STRETCH.

RELAX.

Work NMotion™ is just one more innovation from Red Kap® ... and Red Kap® has been making comfortable clothes for work for more than 80 years. So go for it. Squat. Push. Lift. Twist. Stretch. Pull. Reach. Climb. Stretch.

Now there's a revolutionary new choice with a comfortable 10% give and an even more comfortable 100% assurance that it will bounce back (without sagging at the knees and elbows like other stretch products on the market). That means you can move easy ... and rest easy ... knowing that the performance goes on. And on. And on

DESIGNED TO MATCH YOUR EVERY MOVE.

The difference between Work NMotion™ and other stretch fabrics is in its proprietary polyester yarns. Other products are created with a compacted weave so they can expand ... but Work NMotion™ goes even further. With Work NMotion™, the fabric is constructed to allow the yarn to shrink – which (combined with mechanical weave) means better flex AND superior recovery.

WORK NMOTION™ ISN'T JUST ANOTHER ORDINARY STRETCH PRODUCT - IT'S MADE DIFFERENT TO WORK HARDER.

IT'S NOT HOW HARD YOU WORK. IT'S HOW WELL YOU RECOVER.

Mechanical stretch alone can be a cost effective shortcut for achieving flex – but these fabrics will quickly lose their memory and not recover. This leads to sagging as the stretch works its way out of the fabric. With Work NMotion™, our exclusive yarns ensure ongoing performance for the life of the garment.

STRETCH, BY ITSELF, IS NOT ENOUGH. WITHOUT SUPERIOR RECOVERY CHARACTERISTICS YOU'LL QUICKLY SEE SAGGING.

START WITH REAL STRENGTH AND REAL STAYING POWER.

ENHANCED DURABILITY, SOIL RELEASE AND COLOR RETENTION
ARE ALL PART OF THE WORK NMOTION™ PACKAGE.

Work NMotion's™ superior recovery properties help the fabric maintain its look, feel and comfort over the life of the garment. You can also count on enhanced durability (as a result of the stronger continuous filament yarns) ... outstanding wicking characteristics ... better soil release ... and improved color retention. All of this plus the toughness to take on industrial laundering.

YOU WORK HARD ENOUGH. WE MAKE THE CARE EASY.

WORK NMOTION™ LETS YOU DELIVER A
HARD DAY'S WORK AND STILL LOOK GREAT.

At the end of the day, it's about giving a good day's work and looking good too. And, once again, Work NMotion™ has your back. In addition to the muscle and the moves, with Work NMotion™ you get outstanding crease retention and wrinkle resistance. You may be dog tired, but you won't look it.
